- Mathematics
- Beginner C++
- Intermediate python
- English as a second language

## **ACTIVITIES**

Have been climbing and doing industrial alpine climbing competitively ever since I was 11. Industrial alpine climbing is both a team and individual sport which as far as I know only exists in eastern Europe. In both sports, I have been the national champion individually and I have been a part of a dominant industrial alpine climbing team of four. All that was in the respective age groups to my age.
